Junior level Full-Stack Web Developer leveraging a Bachelor's degree in geology from NC State University along with 3 years in professional leadership positions. Determined and creative problem solver, passionate about developing applications and websites with a focus on creating a more lively and modern user experience on the web.

Work History

2017-06 -

2019-07

Environmental Geologist

AECOM, Morrisville, NC

- Conducted phase 1 and phase 2 environmental site assessments for up to 10 clients (soil, air and groundwater)
- Determined locations for drilling wells and collecting media samples based off phase 1 and 2 data
- Managed and scheduled field staff, contractors and permitting for multiple projects and clients
- Composed and presented detailed project reports to clients

2017-01 -

2017-05

Field Technician

ECS Limited, Raleigh, NC

- Analyzed foundation soils on active construction sites to ensure proper load bearing capacity for structures
- Tested the strength of foundation concrete in a controlled laboratory setting
- Coordinated scheduling and field tasks for up to 5 clients and projects a week
- Drafted detailed professional inspection reports which were then presented to clients
